ARTICLE 6 NON-CONFORMING STRUCTURES, LOTS, AND USES

6.1 Intent

Upon adoption of this Code and Official Zoning Map, some structures, lots, and uses may no longer conform to the regulations of the zoning district in which they are located. For this reason, this Article has been generated to provide the rules, policies and regulations that apply to these structures, lots, and uses; referred to as Legal Nonconforming.

6.2 Distinction Between Illegal Nonconforming and Legal Nonconforming

A structure or lot which was constructed or is being used without an approved Building Permit or approval from the Zoning Board or City Council is considered illegal nonconforming. An illegal nonconforming property shall be subject to actions and penalties allowed by this Code and all other applicable City of Cochran laws and shall be altered to conform to all applicable standards and regulations of this Code. Further, an illegal nonconforming structure, lot or use is created at the fault of the owner, tenant or property manager.

Legal nonconforming differs from illegal nonconforming in that the reason for the nonconformance is caused by the enactment of a Zoning Code or a change to the Zoning Code (including the Official Zoning Map). The structure, lot or use has not changed, but due to the Zoning Code enactment or change, the property no longer conforms to the policies and standards of the zoning district in which it is located. When this situation occurs, the property is deemed legal nonconforming or “Grandfathered.”

6.3 Nonconforming Structures

Any structure, lawfully established prior to the effective date of this Code, or its subsequent amendments, that no longer meets the developmental standards shall be deemed a legal nonconforming structure.

A legal nonconforming structure may continue if it remains the same or fits within the below described tolerances:

- A.** Any legal nonconforming structure shall not be enlarged or altered in a manner that increases its nonconformity, but any structure or portion thereof may be expanded within the allowable building envelope or altered in a manner to decrease its nonconformity.

- B.** Any legal nonconforming structure which is intentionally altered to conform to the requirements of this Code shall thereafter conform to the regulations of the district in which it is located, and the legal nonconforming features may not be resumed.

- C.** If a building or structure is moved for any reason, for any distance, it shall thereafter conform to the provisions of this Code.

The intent, and any evidence thereof, of any owner and/or user of a building or land, to discontinue or abandon the use shall be irrelevant in determining whether discontinuance or abandonment has in fact occurred. Instead, the determination of such discontinuance or abandonment shall be based upon such objective evidence as would lead a reasonable observer of actual use of the building or land, to believe that discontinuance or abandonment of the use has in fact occurred. This subsection (5) b. shall not apply to legal nonconforming uses in existence on or before September 15, 2003.

6.4 Nonconforming Lots of Record

All lots legally established and recorded prior to the effective date of this Code, or its subsequent amendments that no longer meet any applicable provision of this Code shall be deemed a legal nonconforming lot of record. Legal nonconforming lots of record may be built upon only if the proposed use is permitted and all development standards of the applicable zoning district of this Code are met. Any lot which met minimum lot standard area at the time it was created, shall be deemed buildable for a single-family residence.

6.5 Nonconforming Uses of Structures, Land, or Structures and Land in Combination

Any lawful use of structures, land, or structures and land in combination established prior to the effective date of this Code or its subsequent amendments that is no longer a permitted use in the district where it is located shall be deemed a Legal Nonconforming Use. A legal nonconforming use may continue provided it remains otherwise lawful, subject to the following conditions:

- A.** Existing structures devoted to a legal nonconforming use shall only be enlarged, expanded, increased, extended, constructed, or structurally altered in accordance with the Zoning District Standards identified in Article 3. Furthermore, the use of the structure may be altered to a use permitted in the district in which it is located or as otherwise specified in this Article.
- B.** No structure shall be constructed in connection with an existing legal nonconforming use of land.
- C.** Any legal nonconforming use of a structure may be extended throughout any parts of a building which were plainly arranged or designed for such use at the effective date of this Code or its subsequent amendments, but no such use shall be extended to occupy any land outside the building.
- D.** No legal nonconforming use of land shall be enlarged, increased, extended to occupy a greater area of land, or moved in whole or in part to any other portion of a lot than was occupied at the effective date of this Code.
- E.** If a legal nonconforming use is intentionally discontinued for six (6) months or longer, any subsequent use of such land, structure or land and structure shall conform to the provisions of this Code. The intent, and any evidence thereof, of any owner and/or user of a building or land, to discontinue or abandon the use shall be irrelevant in determining whether discontinuance or abandonment has in fact occurred. Instead, the determination of such discontinuance or abandonment shall be based upon such objective evidence as would lead a reasonable observer of actual use of the building or land, to believe that discontinuance or abandonment of the use has in fact occurred. This subsection shall not apply to legal nonconforming uses in existence on or before September 15, 2003.

F. Uses which are required to be discontinued due to government action which impedes access to the premises, or damage resulting from fire, flood, other natural disaster, or a criminal act shall be exempt from this provision. Such exempt uses, if rebuilt or restored, shall be identical in scale, lot coverage, and all other aspects to that which was discontinued.

G. When a legal nonconforming use is superseded by a permitted use, it shall thereafter conform to the regulations of the district in which it is located, the legal nonconforming use may not thereafter be resumed.

6.6 Repairs and Maintenance

The following applies to legal nonconforming structures and legal nonconforming uses of structures, or structures and land in combination:

A. Work may be done for ordinary repairs or replacement of walls, heating, fixtures, wiring, or plumbing; under the condition that the cubic content existing when the structure became nonconforming shall not be increased.

B. If a structure becomes unsafe or unlawful due to physical condition and is razed, the structure shall be rebuilt in conformity with the district in which it is located.

C. Nothing in this Section shall be deemed to prevent the strengthening, repairing, or restoring to a safe condition of any structure or part thereof declared to be unsafe by any official charged with protecting public safety upon order of such official.

6.7 Parking regulations and Commercial Use Restrictions

A. Commercial Vehicle Parking Restrictions. Commercial vehicles having a manufacturer's gross weight rating of eleven thousand (11,000) Pounds (five- and one-half tons) or more are prohibited from parking on any street, alley public way or public place except with the respect of making pickups and deliveries from or to any building or structure or for the purpose of delivering materials to be used in the actual repair, alteration, remodeling, or construction of any building or structure located off the designated truck route.

B. Unattached Trailer and Semi-Trailer Parking Restrictions. Trailers and semi-trailers are prohibited from parking in any street, alley, public way, or public place. This section shall not apply to trailers or semi-trailers in the process of being loaded or unloaded, nor shall it apply to any trailer or semi-trailer which is disabled in such a manner and to such an extent that it is impossible to avoid stopping and temporarily leaving the disabled trailer or semi-trailer on that portion of the highway, street, alley, public way, or public place ordinarily used for vehicular parking. A disabled trailer or semi-trailer shall not be temporarily parked along a public right of way for more than twenty four (24) hours.

ARTICLE 7 ADMINISTRATION AND ENFORCEMENT

7.1 Administration and Enforcement. It shall be the duty of the Zoning Administrator of the City of Cochran, as formally designated by the City of Cochran, and with the aid of other City agencies or officials, to administer and enforce the provisions of this Ordinance. This Zoning Administrator is hereby given the authority and responsibility to enforce all provisions of this Ordinance.

If the Zoning Administrator shall find that any of the provisions of this Ordinance are being violated, he shall notify in writing the person responsible for such violations, indicating the nature of the violation and ordering the action necessary to correct it. He shall order discontinuance of illegal uses; discontinuance of illegal buildings, manufactured homes, or other structures or of illegal additions, alterations, or structural changes; discontinuance of any illegal work being done; or shall take any other action authorized by this Ordinance, or other remedy as available at law, to ensure compliance with or to prevent violation of its provisions.

7.2 Duties and Powers. It shall be the duty of the Zoning Administrator and he shall have the power to:

- A.** To serve as a liaison between the Planning Commission and the Mayor and Council, keeping each body advised of pending actions pertaining to zoning.
- B.** To serve as a non-voting ex-officio member of the Planning Commission to provide technical assistance in matters relating to zoning requests.
- C.** To maintain in a timely and current manner the Official Zoning Map reflecting thereon any and all rezoning amendments approved by Mayor and Council. Amendments of this Official Zoning Map will be recorded by the Zoning Administrator within seven (7) calendar days following approval of such action by Mayor and Council.
- D.** Require that the application for a building, sign, or other zoning permit and any accompanying site plan shall contain all the information necessary to enable the Zoning Administrator to ascertain whether the proposed building, use, or structure complies with provisions of this Ordinance.
- E.** Require that an application for approval of placement of any manufactured or mobile home anywhere in the city be made on a form or forms developed for that purpose and shall be submitted for review and approval in accordance with this Ordinance. This application shall include all information necessary to make determinations as to conformity with the provisions and standards of this Ordinance as applicable to each such structure, including photographs or rendering of the front and side of the manufactured or mobile home, exterior finish, roof, skirting, or any other information deemed necessary to make determinations required by this Ordinance.

- F.** Keep a permanent record of all plans and applications for permits, and all permits issued with notations as to special conditions attached thereto. All records should be open for public inspection and shall be the property of the City.
- G.** Require that no building permit, sign permit, or approval for placement of a manufactured or mobile home, shall be issued until the Zoning Administrator has certified that the proposed building, sign, alteration, placement, or use complies with all provisions of this Ordinance.
- H.** Conduct inspections and surveys to determine compliance or non-compliance with the terms of this Ordinance. In carrying out such surveys, the Zoning Administrator or his representative may enter upon any land or buildings.
- I.** Make written orders requiring compliance with the provisions of this Ordinance to be served personally or by registered mail.
- J.** Maintain a map showing the current zoning classification of all land.
- K.** Maintain a map and register showing the registration, identity, location and type of all non-conforming uses.
- L.** Participate in all proceedings before the Planning Commission and present facts and information to assist the Commission in reaching a decision.
- M.** The Zoning Administrator shall have authority to issue permits only for construction, placement of manufactured homes, signs and uses which are in accordance with this Ordinance. It shall be unlawful for any person to commence work for the erection or alteration of any building, sign, or other structure, or place a manufactured home in the city, until an appropriate building, placement, or sign permit has been duly issued therefor. Permits for construction, placement of manufactured and mobile homes, signs, and uses which are special exceptions to such general requirements and conditional uses shall be issued by the Zoning Administrator only upon completion of the required process and official action by City Council. The Zoning Administrator shall issue no permits for construction, signs, or use of any land or buildings, or placement of manufactured homes, unless it also conforms to all requirements of this Ordinance and any other appropriate regulation of the City.

7.3 Valid Permits Required. No building shall be constructed or altered, or the use of any building and/or land changed, a sign erected, or a manufactured or mobile home placed in the city, until a valid permit has been secured from the Zoning Administrator. The issuance or granting of a permit or approval of plans or specifications shall not be deemed or construed to be a permit for, or an approval of, any violation of any of the provisions of this Ordinance or of any other ordinance of the City of Cochran. No permit presuming to give the authority to violate or cancel the provisions of this Ordinance shall be valid, except insofar as the work or use which it authorizes is lawful. Issuance of a permit upon plans and specifications shall not prevent the Zoning Administrator or City from thereafter requiring the correction of errors in such plans and specifications, or from thereafter preventing building operations being carried on thereunder when in violation of this Ordinance or of any other ordinance of the City of Cochran. Permits for construction and uses which require a conditional use or variance to the general requirements of this Ordinance shall be issued by the Zoning Administrator only upon order of the City Council.

7.4 Applications for Permits. No permit shall be issued for the construction, alteration, remodeling, or placement of any building, sign, structure, or manufactured home, until a written application is filed with the City by the owner of the property affected or by the authorized agent of such owner. This site plan shall be provided in triplicate and submitted with the application and shall show the following at a scale not more than fifty (50) feet to the inch.
 - 1. Title, if any, under which the proposed development is to be recorded and the name of the present owner.
 - 2. Names of owners of adjacent property.

7.6 Fees. Fees for applications, inspections, and the issuance of permits or certificates or copies thereof required or issued under the provisions of this Ordinance shall be collected by the City at the time of application in advance of the issuance of such permits or certificates.

The amount of such fees shall be established by the City Council, from time to time, and shall cover the cost of inspection and supervision resulting from the enforcement of this Ordinance. The fees shall be deposited with the City Clerk.

7.7 Permit Expiration. If no substantial progress on construction or placement has been made on an issued permit within six (6) months, beginning with the date the permit is issued, the permit shall become invalid and expire. The Zoning Administrator may renew the permit. A renewal fee is required to be paid by the applicant before the permit can be renewed.

The Chair may declare out of order any presenter making emotional arguments or extraneous statements not germane to the issue. Only presentation and information relevant to issues raised in the City's adopted "Standards for Zoning Decisions" shall be considered germane.
- I.** Only members of the hearing body may question a person making a presentation during the hearing. For a person in attendance to speak, the Chair must first recognize that person.
- J.** The order of procedure for each hearing shall be as outlined below:
1. After convening and identifying the public hearing, the Chair will request the register for that hearing and briefly recite the procedures in effect, including any specific time limits.

2. Presentations, if desired, by the proponents of the proposed zoning change or amendment.
 3. Questions by members of the hearing body of the proponents.
 4. Presentations, if desired, by the opponents of the proposed zoning change or amendment.
 5. Questions by members of the hearing body of the opponents.
 6. Upon conclusion of the presentations and questions, the Chair will thank all for their interest and attendance, assure that all views and the entire matter will be given careful consideration, and shall close that hearing.
- K.** The Chair will then announce the time and place of the meeting of the Mayor and City Council which will have the proposed change on the agenda for official action.
- L.** Any other scheduled public hearing or amendment or change shall then be convened, utilizing the same procedures.
- M.** Only normal minutes shall be maintained by any zoning public hearing as a matter of course. However, upon receipt of written request from an affected party or parties at least one week prior to the scheduled public hearing, the City shall have a transcript prepared, provided that the entire cost of preparation shall be borne by the affected party or parties making such request. Agreement to this by the party or parties making such request must be provided to the City in writing before preparations for such a transcript will be undertaken.

9.8 Standards for Zoning Decisions. In order to conform to the Zoning Procedures Law of the State of Georgia (Title 36, Chapter 66 of the Official Code of Georgia Annotated), the following standards will be considered as appropriate and as relevant to a particular zoning decision by the City Council when adopting, changing, or amending the Zoning Ordinance or the Zoning Map.

- A.** Assure that the proposed change is reasonable and consistent with the spirit, purpose, and intent of the Zoning Ordinance.
- B.** Consider the changes in community characteristics which may take place because of the proposed change and consider the consistency with and effect of the change on current public growth and development policies and plans.
- C.** Consider the relative effectiveness or ineffectiveness of the present wording or districting of the Ordinance, and whether a justification for change exists because of special reasons or a change in conditions.
- D.** Consider the effect upon the public interest of granting or denying the proposed change and determine that the change will serve the best interests of the City, as compared to any hardship imposed upon the individual property owner.

- E.** Consider the existing land use pattern, and specifically the presence or absence in the adjacent surrounding area of conditions and uses which are the same or similar in character to any proposed change or use, and the possible creation of an isolated district unrelated to adjacent districts.
- F.** Determine that the proposed change will not substantially injure or detract from the use or value of neighboring property, or from the general character of adjacent and nearby property in the surrounding area.
- G.** Consider the unique characteristics of the property involved, and whether the property to be affected by the zoning proposal has some reasonable economic use as currently zoned or whether there are substantial reasons why the property cannot be used in accordance with existing zoning.
- H.** Consider the effect of the proposed change upon the logical, efficient, and economical extensions of public services and facilities, or possible overtaxing or burdening of existing public services or facilities, including but not limited to utilities, streets, schools, and public safety services, and also the associated costs to the local government in providing, improving, increasing, or maintaining such facilities and services.
- I.** Consider the impact of the change with respect to probable effects upon highway traffic and safety, and especially access near intersections.
- J.** Consider the impact of the proposed change upon the environment, including but not limited to drainage, soil erosion and sedimentation, flooding, noise, air quality, and water quality and quantity.
- K.** Determine that the zoning proposal will permit suitable use or uses in view of the subject property's physical characteristics, the use and development of adjacent and nearby properties, existing zoning patterns, existing or proposed public facilities or services, environmental impacts, and current public growth and development policies and plans of the City.
- L.** Consider whether the change is designed to correct an improper situation or would merely result in the granting of special privileges not available to adjacent or surrounding properties.
- M.** Consider the conformity of the proposed change with the City's adopted Comprehensive Plan.
- N.** Consider any other factors relevant to balancing the City's interests in promoting and protecting the public health, safety, morality, or general welfare against a right to unrestricted use of property.

- E. A Planning Commission or City Council member who has a property or financial interest shall disclose the nature and extent of that interest in writing to the Mayor and City Council.
- F. A Planning Commission or City Council member with a property or financial interest in property to be rezoned shall disqualify himself from voting and shall not take any action to influence the application for rezoning.

9.10 Disclosure of Campaign Contributions. 4. The disclosure statement shall be filed at least five (5) days before the first hearing on the rezoning application.

9.11 Limits Upon Reconsideration of Rezoning Petitions. In the event the Mayor and Council hold a hearing as herein prescribed for the consideration of a zoning decision which is for the rezoning of property and the amendment to the Zoning Ordinance to accomplish the rezoning is defeated by said Mayor and Council, then the same property may not again be considered for rezoning until the expiration of at least six (6) months immediately following the defeat of the rezoning by said Mayor and Council.

ARTICLE 10 CONDITIONAL AND TEMPORARY USES

10.1 Initiation of Conditional Use. Conditional uses as listed in any zoning district are declared to possess characteristics which require certain controls in order to ensure compatibility with other uses in the district within which they are proposed for location. Each district for zoning shall have a subhead there under to be known as "Conditional" for that district.

A conditional use subject to approval of the City Council in a particular zone may be initiated by the owner of the property proposed for the conditional use by filing an application with the Zoning Administrator and paying the appropriate fee. Reapplication for a conditional use may not be heard for six (6) months from the date of the prior decision of the Mayor and City Council.

10.2 Application for Conditional Uses. Applications for conditional uses shall be obtained from the Zoning Administrator. Said applications shall include:

- A. Forms designated by the City.
- B. Application information and requirements as outlined in subsection 9.3 of this Ordinance.
- C. Any other supporting documentation as required by the Zoning Administrator.
- D. Fees as designated by the City.

10.3 Procedure for Review of Conditional Uses.

- A. Upon receipt of a complete application for a conditional use as authorized in this Ordinance, the City will proceed with review of this conditional use in the same manner and with the same requirements as if it were an application for a zoning amendment by a property owner. Such requirements are outlined in subsection 9.5 and include referral to the Planning Commission for review, public hearings by the Planning Commission and City Council, newspaper notice, and sign posting.
- B. Whenever any application for a change in the district maps is accompanied or supported by specific plans and design for a particular development and use, and the Mayor and Council, after action by the planning commission in accordance with this article, and after public hearings as provided in this article, and upon submission of all specifications, plans, designs and conditions in a final ordinance form, have approved such specific plans and design, and such particular development and use and also have approved such change in the district maps, then the property may be rezoned for the proper district as set forth in this zoning ordinance for the City of Cochran as "conditional" under that district. After such rezoning, city staff shall provide to the applicant a copy of this ordinance, such applicant shall indicate his or her receipt by initialing the same, and city staff will accordingly retain a copy of the initialed document. The following conditions apply to development of the conditionally rezoned property:

1. The building inspector shall issue a building permit for the development of the rezoned property only in strict compliance with the plans submitted.
2. Unless the conditional zoning designation has been extended as provided in subsection (4) and subsection (5) herein below, the conditional zoning designation shall expire twelve (12) months from the date of the conditional rezoning and shall immediately revert to the previous zoning designation.
3. If such building permit is issued within twelve (12) months of the date of the conditional rezoning, the conditionally rezoned property shall retain its conditional zoning designation.
4. However, if such building permit has not been issued within ten (10) months of the date of the conditional rezoning, the applicant may request an extension of the conditional zoning. Additionally, city staff, including but not limited to the city Zoning Administrator and the building inspector shall, between ten (10) months and one (1) year of the date of the conditional rezoning, prepare a report for mayor and council's consideration as to whether the conditionally rezoned property shall retain its conditional zoning designation. Such report shall include the original rezoning application and details regarding development on the conditionally rezoned property, if any.
5. Upon consideration of the report of city staff, mayor and council shall determine whether the property shall revert to its previous zoning designation or retain its conditional zoning designation for one (1) additional year. Failure of the applicant to timely request an extension of the conditional zoning shall, in no event, result in an extension of more than one (1) year, of the conditional zoning designation. If mayor and council determine that the property shall retain its conditional zoning designation for an additional year and no building permit is obtained within ten (10) months of the date of the extension of the conditional zoning, the applicant may again request an extension of the conditional zoning, and city staff and mayor and council shall again take the actions specified herein and in subsection (4) hereinabove. Until a building permit is obtained, the processes specified herein and in subsection (4) hereinabove will continue.

The failure of city staff and mayor and council to take any actions herein shall, in no event, result in an extension of the conditional zoning.

10.4 Standards for Granting/Denying Conditional Uses. The Planning Commission and City Council shall use the Standards for Zoning Decisions as outlined in subsection 9.8, as appropriate, in determining whether to recommend, grant, or deny a requested conditional use.

10.5 General Permit Requirements. Conditional uses shall be permitted subject only to a determination by the Zoning Administrator that they conform with all conditions set both by the Ordinance for the district in which they are located and by the City Council for the development proposed.

10.6 Temporary Uses. The Zoning Administrator is authorized to issue a Temporary Certificate of Zoning Compliance for temporary uses, as follows:

- A. Carnival, circus, or fair, for a period not to exceed twenty-one (21) days, subject to the approval of the City Council in the B-1, and B-2 districts.
- B. Religious meeting in a tent or other temporary structure in B-1 and B-2 districts, for a period not to exceed sixty (60) days.
- C. Open lot sale of Christmas trees, fruit and vegetables, and other harvested products in the B-1, B-2, and M-1 districts for a period not to exceed forty-five (45) days.
- D. Contractor's office and equipment sheds, in any district, for a period of one (1) year, provided that such office be placed on the property to which it is appurtenant.
- E. All Temporary Certificates of Zoning Compliance may be renewed if it is determined that said use is clearly of a temporary nature, will cause no increased traffic congestion, and will not create a nuisance to surrounding uses.

ARTICLE 11 VARIANCES

11.1 Variances. The Mayor and Council of the City of Cochran shall hear and decide upon all variances to the City's Zoning Ordinance. **All variances will follow the same public notice and procedural requirements as in a rezoning request by a property owner.**

11.2 Request for a Variance. The City Council may authorize, in specific cases, such variance from the terms of these regulations as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of these regulations will, in an individual case, result in practical difficulty or unnecessary hardship, so that the spirit of these regulations shall be observed, public safety and welfare secured and substantial justice done; **provided, however, that a variance shall not be granted for use of land or building or structure that is prohibited by this Ordinance in the district in question.** Such variance may be granted in an individual case upon a finding by the City Council that the following exists:

- A. There are extraordinary and exceptional conditions pertaining to the piece of property in question because of its size, shape, or topography; and,
- B. The application of these regulations to this piece of property would create a practical difficulty or unnecessary hardship; and,
- C. Such conditions are peculiar to the piece of property involved; and,
- D. Relief, if granted, would not cause substantial detriment to the public good or impair the purpose and intent of these regulations, provided, however, that no variance may be granted for a use of land or building or structure that is prohibited by this Ordinance; and,
- E. A literal interpretation of this Ordinance would deprive the applicant of any rights that others in the same district are allowed; and,
- F. Provided that the City Council may impose or require such additional restrictions and standards as may be necessary to protect the health and safety of workers and residents in the community, and to protect the value and use of property in the general neighborhood; and provided, that wherever the City Council shall find, in the case of any permit granted pursuant to the provisions of these regulations that any of the terms, conditions or restrictions upon which such permit was granted are not being complied with, said Council shall rescind and revoke such permit after giving due notice to all parties concerned and granting full opportunity for a public hearing.

11.3 Forms. Applications for variances shall be made on forms provided by the Zoning Administrator and all information required on said forms shall be provided by the appellant. Forms shall be filed with the City and the appellant shall pay the City for expenses incidental to the variance. No form shall be accepted by the City unless it contains all pertinent information and is accompanied by the appropriate fee payable to the City, to defray expenses.
